

the FS Advantage Series

Environmentally Friendly Doors That meet the 2009 Federal Standards

Featuring 2 and 3 Pane Low E Glass Packages

The FS Advantage Series doors are built with the same door and frame system as our ECO Series to maximize energy efficiency by providing better installation qualities. All FS Advantage Series cooler doors are energy free.

Designed with a flat mullion and field reversibility the FS Advantage Series Doors offers upscale styling and the flexibility and dependability you can count on. Our exclusive RLS Lighting distributes the light to the center of the shelf to bring out all the vibrant colors in your packages.

Add optional features like gravity flow shelving and full length handles to give you the look you want at a price you can't beat and a door that you can rely on for years of dependable service.

FS Advantage Series Standard Features

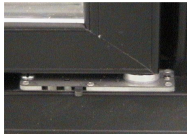

For Freezer doors to meet Federal Standards add: \$1,230.00 for 1-5 doors and \$172.00 for each additional 1-5 doors
 Example for 8 - 30 x 73 doors 8 x \$2,124.00 = \$16,992.00 + \$1,230.00 (Controller) + \$172.00 (relay) = \$18,394.00 x multiplier
 First 5 doors require 1 controller each additional 5 doors require 1 relay 12 doors would require 1 controller and 2 relays

The flat mullion design provides superior insulation against cold transfer, and a reduction in energy consumption for the Environmentally sensitive customer

The RLS lighting system with its unique design increases the amount of light at the center of the shelf. The T-8 lighting and electronic ballast bring to life the vibrant colors on all your packaged product

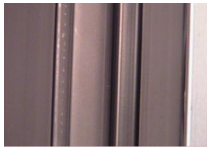

The unique design of the Kwik Torque* makes adjusting tension a snap. Just 3 to 4 clicks and the door shuts and seals with ease.

The Kwik Level* system is placed at the top of the door making it simple to sight down the line-up adjusting each door to the next. Door leveling is simple and easy.

The Advantage Series door plug, for heated door applications, is the smallest profile available. The unique plug design and the flat mullion allow this door to be easily reversed in the field.

The triple seal gasket utilizes a magnetic beaded door gasket fitting into a recessed frame gasket to assure a positive air tight seal
