LED Lights - Make All The Difference!

The exclusive CDS LED Door design provides the brightest and most energy saving product on the market today!

The compact design protects the fixture from damage while offering the most uniform lighting from the end of the shelf to the center. Bright white lighting with no glare on the customer side. LED lighting brings out the vibrant colors on all your packaged products.

CDS Products are covered by
Patent: 6,798,516.

LED Lighting VS Florescent Lighting

The LED Door

The Florescent Door

CDS DOORS WITH HI-DEF LED LIGHTING:

The exclusive anti glare guard design for the mullion cover completely hides the entire LED light fixture providing a view from the side with no glare from an exposed florescent lamp all you see is product not an annoying bright light.

FREE LIGHTING:

To see how fast these lights will pay for themselves ask a sales associate today to compare the cost of operation between the traditional florescent lighting and the exclusive LED technology offered by CDS.

- **Brighter**
